

American School of Warsaw

Established in 1953

July 22, 2015

To Whom it May Concern:

Please accept this letter as enthusiastic letter of recommendation for Margaret (Meg) Claypool, whom I have had the pleasure of knowing for 2 years. Meg worked in the high school mathematics department at the American School of Warsaw. I am the Director of Technology at the school, and while not supervising Meg, I worked with her very closely.

During the years I worked with Meg, I knew her to be highly efficient, helpful, and a great worker. She very quickly understands systems, people, and situations. She is organized, thoughtful, and thorough. Her technical fluency is amongst the very best I've seen. Meg understands and uses systems very, very quickly. She was a peer leader in the school, helping others use complex technology systems.

Meg is "that person" you want on your team. She is positive, agreeable, friendly, and competent. In any office setting, Meg would be an asset. If it was my choice, I would rehire her in a moment, and I am saddened that she left us.

I warmly welcome any questions or comments you have regarding this recommendation. I can be reached via email at bill@mackenty.org or bmackenty@aswarsaw.org

Sincerely,

Bill Mackenty
Director of Technology
American School of Warsaw
